

Archives — Learn Flow Spec

AFF-844 · PostHog Project 93650 · Generated 2026-04-30

- ☐ **Normal** — event exists in codebase
- ☐ **Red** — not in codebase, needs implementation
- ☐ **Grey** — in codebase, not wired in new flow
- ☒ **Blue** — checkpoint
- ☐ **Dark Grey** — alternate path (diagram)

User Journey

Events

#	Node	PostHog Events	QA
1	Eras Tab	page_view page_name: era_selection_onboarding era, time_spent_seconds, clicks	Blank screen; eras fail to load from Supabase; loading spinner never resolves

#	Node	PostHog Events	QA
2	Era Selected	era_selected era_name, era_id, screen, context: onboarding era_switch, selection_order subscribe_screen_viewed trigger: era_locked, era_id, era_name (if premium era tapped)	Era card tap unresponsive; premium paywall fails to present; selection highlight doesn't update
3	Era View / Adventures	page_view page_name: adventures, time_spent_seconds, clicks era_started era_id, era_name, screen: era_view (fires once per era per user) era_completed era_id, era_name, total_adventures, total_xp (fires once when all adventures done)	Adventures fail to load; coming soon view shown for active era; progress header shows wrong XP; infinite loading spinner
4	Adventure Card Opened	adventure_started era_id, era_name, adventure_id, adventure_number, adventure_title, screen: home adventure_card_dismissed adventure_id, time_on_card_seconds	Adventure card modal doesn't open; close button unresponsive; card content empty
5	Module Tapped	module_started era_id, era_name, adventure_id, adventure_number, module_id, module_number, module_title first_lesson first_era_number, first_module_number (fires once per user lifetime) lesson_started adventure_id, module_id, lesson_id, lesson_type, era_id, era_name, adventure_number, module_number	Module tap doesn't open lesson modal; locked module tappable; wrong lesson type rendered

#	Node	PostHog Events	QA
6	Reel Lesson	video_played adventure_id, module_id, lesson_id, lesson_title, video_duration_seconds, era_id, era_name video_paused video_progress (%), position_seconds, duration_seconds, era_id, era_name video_completed video_duration_seconds, completion_time_seconds, era_id, era_name reading_card_expanded adventure_id, module_id, lesson_id, era_id, era_name video_buffering buffer_time_ms, video_url, era_id, era_name lesson_dismissed adventure_id, module_id, lesson_id, video_progress, time_spent_seconds	Video won't play (HLS decode error); reading card gesture conflict; continue button hidden behind card; video buffer spinner never resolves
7	Image Carousel	carousel_image_view image_index, time_spent_seconds, total_images, era_id, era_name screen_press interaction_type: tap swipe, target, era_id, era_name lesson_dismissed adventure_id, module_id, lesson_id, images_viewed, time_spent_seconds	Images fail to load; swipe gesture unresponsive; background music doesn't stop on dismiss
8	Video Carousel	video_played adventure_id, module_id, lesson_id, lesson_title, era_id, era_name video_paused video_progress, position_seconds, duration_seconds, era_id, era_name	Multiple videos play simultaneously; swipe between videos drops frames; video index out of bounds

#	Node	PostHog Events	QA
		video_completed video_duration_seconds, completion_time_seconds, era_id, era_name lesson_dismissed adventure_id, module_id, lesson_id, videos_watched, time_spent_seconds	
9	Scrollable Media	screen_press interaction_type: tap swipe, target, era_id, era_name lesson_dismissed adventure_id, module_id, lesson_id, scroll_depth_pct, time_spent_seconds	Mixed media blocks fail to render; scroll position lost on orientation change
10	Lesson Completed	lesson_completed adventure_id, module_id, lesson_id, time_spent_seconds, era_id, era_name, adventure_number, module_number	Progress not saved to GamifiedProgress; lesson marked complete but continue doesn't navigate; duplicate completion events
11	Quiz	quiz_started adventure_id, module_id, total_questions, era_id, era_name, quiz_id, quiz_title quiz_question_answered question_number, is_correct, time_taken_seconds, xp_earned, current_total_xp, era_id quiz_completed quiz_score, correct_answers, total_questions, time_spent_seconds, is_retake, xp_earned, total_xp_before, total_xp_after module_completed adventure_id, module_id, quiz_score, era_id, era_name (via trackCustomEvent) quiz_abandoned	Quiz modal doesn't open; answer selection unresponsive; feedback sheet covers submit button; XP milestone modal blocks quiz flow; score saved incorrectly

#	Node	PostHog Events	QA
		adventure_id, module_id, questions_answered, total_questions, time_spent_seconds	
12	Quiz Results	quiz_results_viewed correct_answers, total_questions, percentage, total_points, performance_tier: high medium low, era_id, era_name quiz_results_continue_clicked adventure_id, module_id, era_id, era_name (via trackCustomEvent) quiz_results_chat_to_learn_clicked adventure_id, module_id, era_id (via trackCustomEvent) quiz_retake adventure_id, module_id, previous_score, era_id, era_name	Results screen blank; confetti crashes on Android; score counter animation stuck; continue button unresponsive; AI explanation loading fails
13	Continue	quiz_results_continue_clicked adventure_id, module_id, era_id (via trackCustomEvent)	Continue doesn't close modal; progress not reflected in bento grid; next module not unlocked
14	Back to Adventures	learn_flow_completed adventure_id, module_id, had_quiz: boolean, total_time_seconds, era_id	Bento grid doesn't refresh; completed module still shows as in-progress; stars not displayed
15	Adventure Completed	adventure_complete_continue adventure_id, adventure_title, era_id, era_name, total_xp_earned (via trackCustomEvent)	Celebration modal doesn't appear; next adventure not unlocked; celebration blocks interaction permanently
16	Era Completed	era_completed era_id, era_name, total_adventures, total_xp	Era completion not detected; duplicate era_completed events on re-entry
17	AI Chat (from Quiz Results)	ai_quiz_explanation_requested adventure_id, module_id (via trackCustomEvent) ai_quiz_explanation_generated adventure_id, module_id (via trackCustomEvent)	AI explanation times out; paywall not shown for free users; chat context wrong era

#	Node	PostHog Events	QA
		chat_to_learn_paywall_shown adventure_id, module_id (via trackCustomEvent, for non-subscribers)	
Global events tracked across all Learn screens			
Event	Properties	Status	
lesson_dismissed	adventure_id, module_id, lesson_id, time_spent_seconds, progress_at_exit	Needs implementation — no analytics fire when user taps X to exit a lesson mid-progress	
quiz_abandoned	adventure_id, module_id, questions_answered, total_questions, time_spent_seconds	Needs implementation — quiz unmount logs to console but no PostHog event fires	
module_tracking	era_number, adventure_number, module_number, lesson_type, time_spent_seconds, screen_presses, q1-q5 answers	Exists in AnalyticsService (trackModuleEngagement) but not wired in current components	
drop_off	screen_name, era_number, adventure_number, module_number, session_duration_seconds	Exists in AnalyticsService (trackDropOff) but not wired in lesson/quiz components	
video_progress	video_name, screen, progress_percent, duration_seconds	Exists in AnalyticsService (trackVideoProgress) but not wired in lesson components — only used in onboarding	

Questions This Flow Answers

1. Strategic Questions

- 1. Where is the major drop-off in the learn funnel?

2. Which lesson type has the highest completion rate?
3. How long does the average user spend per lesson?
4. How many users complete a quiz on their first attempt?
5. How many users need a retake to pass a quiz?
6. How many modules does the average user complete before leaving?
7. How many users complete an entire adventure?
8. How many users complete an entire era?

2. Behavioral Insights

1. How many users open the Eras Tab?
2. How many users select an era?
3. How many users open an Adventure Card?
4. How many users tap a module to start a lesson?
5. How many users watch a video to completion in a Reel Lesson?
6. How many users expand the reading card in a Reel Lesson?
7. How many users complete an Image Carousel lesson?
8. How many users complete a lesson and proceed to the quiz?
9. How many users dismiss a lesson before completing it?
10. How many users start a quiz?
11. How many users answer all quiz questions?
12. How many users score 100% on a quiz?
13. How many users score between 40-80% on a quiz?
14. How many users score below 40% on a quiz?
15. How many users tap "Chat to Learn" on the Quiz Results screen?

16. How many users retake a quiz from the Quiz Results screen?
17. How many users request an AI quiz explanation?
18. How many non-subscribers hit the "Chat to Learn" paywall?
19. How many users experience video buffering longer than 3 seconds?
20. How many users start their very first lesson in the app?

3. Checkpoint Validation

1. **Eras Tab** — How many users see the era selection screen?
2. **Era View** — How many users see the adventures list for a selected era?
3. **Module Tapped** — How many users tap a module to begin a lesson?
4. **Lesson Completed** — How many users complete a lesson?
5. **Quiz** — How many users start a quiz?
6. **Quiz Results** — How many users finish a quiz?
7. **Adventure Completed** — How many users complete all modules in an adventure?

Analysis Notes

- **Exclude dismissed lessons from completion rate:** Users who tap the X button to exit a lesson mid-progress should not count as drop-offs in the lesson completion funnel. Once `lesson_dismissed` is implemented, filter by it when calculating lesson → quiz conversion.
- **Exclude backgrounded sessions:** A user backgrounding the app during a lesson or quiz is not a drop-off. Use app lifecycle events (`app_backgrounded` / `app_foregrounded`) to stitch sessions. Only count a user as dropped if they never return to finish.
- **Quiz retakes are not separate funnels:** A retake (`quiz_retake`) feeds back into the same quiz. When calculating quiz completion rates, count the final attempt only. Use `is_retake` on `quiz_completed` to distinguish first attempts from retakes.
- **Video buffering context:** `video_buffering` events contain the CDN URL — use this to correlate buffering with specific CloudFront distributions or HLS vs progressive format.
- **module_completed vs lesson_completed:** `lesson_completed` fires per-lesson (a module may have multiple lessons). `module_completed` fires once after the quiz is passed for a module. These are distinct funnel stages.
